

## Machine Quilting with Confidence

### Beginner's Machine Quilting Workshop

The aim of this one day workshop (or two half days) is to take away all your fears regarding machine quilting and make you enjoy quilting on the domestic sewing machine.

You'll learn the theoretical background of machine quilting and you'll increase your confidence by working through quilting and drawing exercises from the easiest heading towards the more difficult one. You will practice starting, stopping, adjusting thread tension and finding your own quilting rhythm. You will learn how to do meandering, stippling, echo quilting and quilting patterns what you can use to decorate borders and blocks.

At the end of the 6 hours class you'll have a solid basis to tackle your quilts at home.

### Intermediate Machine Quilting Workshop

This one day workshop is a follow-up of the beginner's class. But quilters, who know the basic of machine quilting are also welcome.

During this class you'll practice more intricate patterns for meandering, background fills, following quilting motifs and echo quilting it. You will learn how different quilting designs can influence your work. The second half of the class is designed to develop your creativity by using all the patterns what you learned during the day.

**Course timing:** Each workshop can be attended as one day (6 hours) workshop or two 3-hours classes upon special request.
